

Project description

This remarkable project came about because the architect was looking for a way to safeguard the entrée of eight apartments. The façade also needed to show signage and enhance the ‘welcome home’ feeling. We designed the pattern in collaboration with a Japanese artist.

Product information

Product: Lalace

Application: Net

Function: Apartment entrance

Type: Bended

Material / coating: Stainless Steel PVC coated

Pattern: Asian floral & signage

Colour: White

Pattern ratio: 60/40

Mounting: Clips (type 1.1)

Project size: 357 m2
