

Project description

The façade is designed for an offi ce building that reduces the amount of direct sunlight into the work place by 35% and also off ers privacy to functions. Diff erent densities in the diamond pattern create a dynamic image within the framework of the glass facade.

Project concept images.

Product information

Product: Dedots

Application: Facade

Function: Offi ce building

Type: Chainlink mesh

Material / coating: PC-ASA

Pattern: Custom

Colour: 1

Dot Density: 45%

Mounting: CL2

Project size: 196 m2
