

Project description

Bicycles are synonymous with the Dutch experience. In daily life, thousands and thousands of bicycles travel from home to work or school, and even from city to city. Dutch people love to cycle and they all need a safe place to park their bicycles. This parking space can house 800 bicycles and is shaped like an apple. The complete skin of the apple is made of Lace Fence with the butterfly pattern creating a hive for butterflies and bikes.

Product information

Product: Lalace

Application: Facade

Function: Large bicycle stand

Type: Bended

Material / coating: Stainless Steel PVC coated

Pattern: Butterfly (#02)

Colour: White

Pattern ratio: 70/30

Mounting: Strips

Project size: 1310 m2
