

Project description

The architect asked us to create an interior ceiling with a crystal like cell pattern for a shopping center. The pattern refers to the crystal like shapes seen up close in snowflakes, a well known scenery in the Swedish area where the shopping mall is located.

Product information

Product: Lalace

Application: Ceiling

Function: Shopping center

Type: Bended

Material / coating: Galvanised PVC coated

Pattern: Cells (#10)

Colour: Grey

Pattern ratio: 50/50

Mounting: Cells (#10)

Project size: 168 m2
