

Project description

In a future park along the Seine, Bob361 incorporates portraits of local residents, created by artist Christian Guemy, into the architecture. These enclosures provide natural light, scenic views, and safety, merging functionality with cultural connection.

Photography: Kees Hummel

Product information

Product: Lalace

Application: Enclosure

Function: Groundfloor apartment entrance & enclosure

Type: Blended

Material / coating: Stainless Steel 304 Powdercoated

Pattern: Portrets by artist Christian Guemy

Colour: White

Pattern ratio: 30%

Mounting: Clamps

Project size: 358 m2
