

Project description

To create a unique natural look to the school facade, the architect invited us to join the project. The kids look through a canopy of large leafs, playing with the eye of perception.

Product information

Product: Lalace

Application: Facade

Function: School

Type: Welded

Material / coating: Stainless Steel powdercoated

Pattern: Leaves #06

Colour: White

Pattern ratio: 50/50

Mounting: Plates (type 2.2)

Project size: 321 m2
