

Project description

A huge carpet projected onto the ceiling invites you to the rooftop restaurant. The golden fabric also functions as a false ceiling behind which sprinklers, electrics, and ventilation systems are hidden. The transparency of the ceiling gives the illusion of a larger space. The pattern displays drops on a surface of water, it unifies the space, from the kitchen to the interior to the outside seating area.

Product information

Product: Lalace

Application: Ceiling

Function: Restaurant

Type: Welded

Material / coating: Stainless Steel powdercoated

Pattern: Drops (#03)

Colour: Gold

Pattern ratio: 70/30

Mounting: Suspended (type 3.1)

Project size: 420 m2
