

Project description

The Red House was the result of a contest where the architect was asked to create a building that would pay homage to the former red-light district. The Lace Fence plays an important part in the concept of the architect, in creating the contour of an iconic house. The design won the contest and so it changed the sketch from fantasy to reality.

Product information

Product: Lalace

Application: Facade

Function: Hotel

Type: Bended

Material / coating: Stainless Steel PVC coated

Pattern: Collar (#05)

Colour: White

Pattern ratio: 40/60

Mounting: Binding wire

Project size: 248 m2
