

Project description

This pavilion, located in a rural coastal area, was designed as a retreat featuring a personalised reinterpretation of traditional heritage patterns. The result is a space that blends cultural identity with a serene natural setting.

Product information

Product: Lalace

Application: Facade

Function: Pavilion

Type: Bended

Material / coating: Stainless Steel PVC coated

Pattern: Traditional Slavic Pattern

Colour: White

Pattern ratio: 90/10

Mounting: Clips (type 1.1)

Project size: 68 m2
