

Project description

At the request of the architect of a sports park near Rotterdam we realised an enclosure that would reduce the force of wind on the field by 40%. The images tell the stories of both the sports played and the surrounding landscape.

Photography: Ronald Tilleman

Product information

Product: Dedots

Application: Enclosure

Function: Sports park

Type: Chainlink mesh

Material / coating: PC-ASA

Pattern: Custom

Colour: 9

Dot Density: 40%

Mounting: CL1

Project size: 8102 m2
